E20 Wall Box
Highlight Features

Smart Charging
Control & plan your charging intelligently via APP. See live values for the charge session and overview of all charging data

Impact Resistance
High-tech PC material is used in casting with excellent resistance to pressure and compression suitable for harsh environment

IP65 Protection
Built and designed to with stand both outdoor and indoor use with IP65 protection rating

Small but powerful
Small but powerful charging station, quick solution to EV charging anxiety

Friendly LED interaction
LED lights indicating the realtime charging status of the charger on power, connection, charging and malfunction

Interoperability
- Built-in Ethernet, Bluetooth, Wi-Fi, and cellular connectivity
- Fully compliant with OCPP for integrating with 3rd-party platforms

Multi Protection
Over current, over voltage, under voltage, surge, short circuit, ground fault, over temperature, leakage and sticking of relay detection

EV Charger
