

# E32 Charger

## Highlight Features

[www.suntransenergy.eu](http://www.suntransenergy.eu)

### Impact Resistance

High-tech PC material is used in casting with excellent resistance to pressure and compression suitable for harsh environment

### IP65 Protection

Built and designed to withstand both outdoor and indoor use with IP65 protection rating (connector IP54)

### Multi Protection

Over current, over voltage, under voltage, surge, short circuit, ground fault, over temperature, leakage, and sticking of relay detection

### Real-time Dynamic Display

- Integrated 7" TFT touch screen
- With clear LED lights indicating the dynamic charging status of the charger on power, connection, charging and malfunction

### Smart Charging

Control & plan your charging intelligently via APP. See live values for the charge session and overview of all charging data

### Integrated RFID Card Reader

Support RFID authority management which enables switching from free charging mode to card charging mode

### Interoperability

- Built-in Ethernet, Bluetooth, Wi-Fi, and cellular connectivity
- Fully compliant with OCPP for integrating with 3rd-party platforms

### Area Light Design

Light sensor will automatically turn on area light and provides more convenience at night
